| Time management | Adaptability |

## ABOUT ME

After graduating and working for three years as a teacher, I have decided to change my career and look for new challenges in IT.  In addition to various online courses, I have completed Codecool's Front-End Developer program which further increased my passion and motivation in working in this field. Since 2022, I am working as a Creative Developer at McCann Erickson where I had the opportunity to develop both my hard and soft skillset necessary for different projects. Overall, I am a highly motivated and easy-going person who always looks for opportunity to learn and develop as a collegue.

## WORK EXPERIENCE

**SEPT 2022 - PRESENT**
McCann Erickson Advertising Agency, Budapest
**Creative Developer**

Developing HMTL/CSS/Javascript codes along customer requests
Supporting the review process of existing products and adjusting them based on feedbacks from customers
Designing materials presented to the customers along different optimization conditions and quality standards
Helping graphical design team in their projects including graphical softwares such as Photoshop, Figma, Illustrator and PowerPoint

**2018 - 2021**
Gárdonyi Géza Elementary School, Budapest
Reményik Sándor Elementary School, Boba
**Elementary School Teacher**

Developed lesson plans
Established and enforced a set of rules for the classroom
Kept parents updated on their child's progress
Encouraged students to learn as much as possible
Monitored each student's progress and provided extra mentorship as needed
